# **Orilla Privacy Policy**

By using this service, you agree to this Privacy Policy.

Orilla will never use any sensitive information from your Meta Quest in a harmful way.

We do not sell, trade, or otherwise transfer your personal information to other third parties without your consent, except as described in this Privacy Policy.

## Services

### **PlayFab**

This game uses an authentication service called “PlayFab”, which stores the IP address of your Meta Quest so you can have all your items saved online without making a backup of any other saved data. When you first login to the game, it generates a unique string of numbers and letters, which is your PlayFab ID. We use your IP address so you can login to your account under the IP address of the device.

### **Photon Engine**

When you connect to multiplayer, you connect to a service called “Photon”, which is a service that provides multiplayer services for games. This multiplayer service also uses voice chat, which records audio from your Meta Quest. Voice data is processed to enable in-game voice chat functionality. This data is encrypted and securely transmitted. The multiplayer cache soon gets deleted from the servers, and there is nothing being stored permanently.

### **QuestCam**

There is a feature in the game called “QuestCam”, which lets players record videos from a virtual camera directly to your Quest, whenever you save a recording from this game, it sends a message to a website (<https://questcam.io/>) that logs the time that the user recorded the data. These recordings are not stored into the server. When the recording

saves, it saves a video of your recording onto the media folder of your Quest. There is not any data of the actual video recording being stored onto a server.

### Account Deletion

You can contact me at [boolonxvr@gmail.com](mailto:boolonxvr@gmail.com) to delete your in-game account, and any trace of your collected data from our online services. You must list your PlayFab ID in the request, which you can find using the in-game menu. If your account gets deleted, you can launch the game to generate a new one. *(If your account is banned, you are not allowed to delete your account, because it would be considered ban evading.)*
